

AMENDMENT TO THE CLAIMS

1. (Currently Amended) A decorative transfer comprising a backing and two or more crosslinkable layers disposed on one side of the backing, wherein a first layer comprises an crosslinkable ink film on the one side of the backing and a second layer comprising a crosslinkable clear gel coat layer over the ink film, the clear gel layer comprising a crosslinkable tacky unsaturated polyester resin.

2-3 (Cancelled)

4. (Original) The decorative transfer of claim 1 wherein the ink film comprises an unsaturated polyester resin.

5. (Previously Presented) The decorative transfer of claim 1 wherein a protective release liner is disposed over the one or more layers.

6. (Currently Amended) The decorative transfer of ~~claim 2~~ claim 1 wherein the crosslinkable ink film and the crosslinkable clear gel coat layer both comprise unsaturated polyester resin.

7. (Currently Amended) The decorative transfer of ~~claim 2~~ claim 1 wherein the crosslinkable clear gel coat layer and the crosslinkable ink film both comprise ~~isophthalic~~ isophthalic/Neopentyl glycol resin.

8. (Cancelled)

9. (Currently Amended) The decorative transfer of claim 1 wherein the crosslinkable ink film comprises one or more pigments.

10. (Currently Amended) The decorative transfer of claim 1 wherein the crosslinkable ink film comprises between about 1.0 percent by weight of tack reducers and about 10 percent by weight of

tack reducers.

11-38 (Cancelled)

39. Cancelled

40. Cancelled

41. (Currently Amended) A decorative transfer comprising a backing and one or more crosslinkable layers disposed on one side of the backing, wherein the one or more crosslinkable layers comprise an crosslinkable unsaturated polyester resin ink film and a crosslinkable tacky resin.

42. (Currently Amended) A decorative transfer comprising a backing and two or more crosslinkable layers disposed on one side of the backing, wherein a first crosslinkable layer comprises an crosslinkable ink film on the one side of the backing and a second crosslinkable layer comprising a clear crosslinkable gel coat layer over the ink film, the clear crosslinkable gel coat layer comprising a crosslinkable tacky resin wherein the crosslinkable ink film and the crosslinkable clear gel coat layer both comprise crosslinkable unsaturated polyester resin.

43. (Currently Amended) A decorative transfer comprising a backing and two or more crosslinkable layers disposed on one side of the backing, wherein a first crosslinkable layer comprises an crosslinkable ink film on the one side of the backing and a second crosslinkable layer comprising a clear crosslinkable gel coat layer over the crosslinkable ink film, the clear crosslinkable gel coat layer comprising a crosslinkable tacky resin wherein the crosslinkable ink film and the crosslinkable clear gel coat layer both comprise unsaturated polyester resin wherein the crosslinkable clear gel coat layer and the crosslinkable ink film both comprise isophthallic/Neopentyl glycol resin.

44. (Currently Amended) A decorative transfer comprising a backing and one or more crosslinkable layers disposed on one side of the backing, wherein the one or more crosslinkable layers comprise one layer forming an ink film and a crosslinkable tacky resin and wherein the crosslinkable ink film comprises the crosslinkable tacky resin.

45. (Currently Amended) The decorative transfer of claim 44 wherein the crosslinkable ink film comprises one or more pigments.

46. (Currently Amended) The decorative transfer of ~~claim 44~~ claim 44 wherein the crosslinkable ink film comprises between about 1.0 percent by weight of tack reducers and about 10 percent by weight of tack reducers.

47. (Currently Amended) A decorative transfer comprising a backing and two crosslinkable layers disposed on one side of the backing the first layer comprising a crosslinkable color gel coat layer on an inner surface of the backing and a second layer comprising ~~the~~ a crosslinkable ink film having ~~the~~ a crosslinkable tacky resin.

48. (Cancel)

49. (Currently Amended) A decorative transfer comprising a backing and one or more crosslinkable layers disposed on one side of the backing, wherein the one or more crosslinkable layers comprise a crosslinkable ink film and a crosslinkable tacky resin.
